1 INSTITUTIONAL AND LINGUISTIC CONTEXT¹

1.1 The federal State of Belgium, its components and its territory

Belgium (in French " Belgique", in Dutch "België", in German " Belgien") is a federal State divided into Communities and Regions.

Belgium includes three Communities:

- the French Community ("Communauté française")
- the Flemish Community ("Vlaamse Gemeenschap")
- the German-speaking Community ("Deutschsprachige Gemeinschaft").

Belgium includes three Regions² :

- the Flemish Region ("Vlaams Gewest")
- the Brussels Region³ (in French " Région bruxelloise", in Dutch "Brussels Gewest")
- the Walloon Region ("Région wallonne")

The Flemish Region ("Vlaams Gewest") includes the following provinces:

- Antwerp ("Antwerpen")
- Flemish Brabant ("Vlaams-Brabant")
- West-Flanders ("West-Vlaanderen")
- East-Flanders ("Oost-Vlaanderen")
- Limburg ("Limburg")

The Walloon Region ("Région wallonne") includes the following provinces:

- Walloon Brabant ("Brabant wallon")
- Hainaut ("Hainaut")
- Liège ("Liège")
- Luxembourg ("Luxembourg")
- Namur ("Namur")

Though at the same level of authority, the federal State, the Communities and the Regions have specific competencies.

To put it simply, we can say that:

- The federal State is in charge of matters concerning all Belgians, whatever the language, the culture or the territory ;
- The three Communities ("Communauté française", "Vlaamse Gemeenschap", "Deutschsprachige Gemeinschaft") are institutions based on the language and mainly competent for matters dealing with culture and people ;
- The three Regions ("Vlaams Gewest", "Région de Bruxelles-Capitale" / "Brussels Hoofdstedelijk Gewest", "Région wallonne") are in charge of territorial matters

¹ Belgian Constitution, Title I, Articles 1 to 7 (*Constitution belge : texte coordonné du 17 février 1994*) published in the Statute Book (*Moniteur belge*) on the 17th of February 1994. Also available on the Belgian Senate website (www.senate.be)

² See map 1 Annex 1

³ Named in French "Région de Bruxelles-Capitale" and in Dutch "Brussels Hoofdstedelijk Gewest" by the law of the 12th of January 1989 related to Brussels Institutions (*loi du 12 janvier 1989 relative aux Institutions bruxelloises*)

1.2 Official languages and linguistic regions

There are three official languages in Belgium: Dutch, French and German.

Following Article 4 of the Constitution, Belgium consists of four language areas⁴:

- The Dutch language area ("Nederlands taalgebied")
- The French language area ("région de langue française")
- The German language area ("deutsches Sprachgebiet")
- The bilingual area (French-Dutch) of the Brussels-Capital Region ("région bilingue de Bruxelles-Capitale" / "tweetalig gebied Brussel-Hoofdstad")

All 589 communes of the Kingdom belong to one of these language areas.

However, a few communes in every language area benefit from a special status according to which language facilities are granted to their inhabitants⁵:

- To French-speaking inhabitants of the Dutch language area
- To Dutch-speaking inhabitants of the French language area
- To German-speaking inhabitants of the French-speaking area
- To French-speaking inhabitants of the German language area

⁴ see map 2 Annex 1

⁵ see map 3 Annex 1

2 LEGAL STATUS OF GEOGRAPHICAL NAMES

2.1 Official names of administrative entities

Today, only the spelling of the names of administrative entities is official.

Official names and spellings of regions, provinces, communities and language areas are the ones stated in the Constitution,⁶ except for the « Région bruxelloise » / « Brussels Gewest » mentioned before⁷.

The official spelling of the names of the 589 municipalities, which resulted from the last merger operations⁸, was established by the Royal decree of the 24th of June 1988⁹.

The official spelling of the name of the municipalities which already existed prior to the merger was established by the Royal decree of the 29th of December 1972¹⁰.

Establishing the spelling of municipalities and hamlets used to be the King's prerogative, but it is now under the Regions' responsibility (Vlaams Gewest, Région de Bruxelles-Capitale / Brussels Hoofdstedelijk Gewest, Région wallonne).

Since the 1st of January 2002 and following the special law on institutional reforms of the 13th of July 2001, the Regions are indeed competent for enacting nearly every organisation rule of their local institutions.

2.2 Official names of public ways and squares

Giving names to public ways and squares is under the responsibility of the municipal council, which is the legislative organ at local level.

Specific recommendations and procedures in that matter are applied in each of the three communities (Flemish, French and German-speaking) as well as for the bilingual area of the Brussels-Capital Region.

2.3 Other names

Though a legal provision allows it, the spelling of hamlet names has never been made official.

The spelling of the other microtoponyms has not been established either.

That is why looking at the maps and products from the National Geographical Institute of Belgium, which strongly promotes the standardization of geographical names, is particularly useful (see point 3.2)

⁶ *Constitution coordonnée le 17 février 1994* (in *Moniteur belge* of the 17th of February 1994)

⁷ See footnote n°3

⁸ *Loi du 30 décembre 1975 portant ratification d'arrêtés royaux pris en exécution de la loi du 23 juillet 1971 concernant la fusion des communes et la modification de leurs limites* (in *Moniteur belge* of the 23^d of January 1976)

⁹ *Arrêté royal du 24 juin 1988 déterminant l'orthographe du nom des communes* (in *Moniteur belge* of the 6th of July 1988). Please note that the spelling of the municipality name of Blégny will later be changed into Blegny by a Royal decree of the 12th of September 2001 (in *Moniteur belge* of the 2^d of October 2001)

¹⁰ *Arrêté royal du 29 décembre 1972 déterminant l'orthographe du nom des communes (...)* (in *Moniteur belge* of the 23^d of January 1973)

2.4 Official translations

As Belgium is a trilingual country, a number of toponyms from one given language area (see point 1.2) are also known in the other language areas in their own languages.

Besides, the federal legislative authority provided a few administrative entities with translations of their names in one or more national languages.

The information sources on these official translations are:

- For the names of regions, linguistic regions, provinces and communities, the Belgian Constitution;
- For the names of municipalities and localities which were granted the status of municipality, the Royal decrees of 1972 and 1988¹¹ ;
- For the German-speaking municipalities, the coordinated laws of the 18th of July 1966 on the use of languages in administrative matters.

It is remarkable that those official translations are, depending on the language status of the region or of the municipality concerned, either endonyms (example: Bruxelles = Brussel), or exonyms (examples: Anvers for Antwerpen; Luik for Liège), in the sense of the definition in the UNGEGN Glossary¹²

The majority of official translations that are exonyms concern either substantial localities (capitals of provinces or of administrative arrondissements), or localities very close to the language border. Though they are used in the communications of certain administrations or public services, they are not used by the IGN-B. (see point 4.1).

In the Annex II, a correspondence table presents, by alphabetical order, all the names of administrative entities for which an official translation exists in one of the other national languages, with namely mention of their status (endonym or exonym).

Since the language facilities are awarded at the level of the smallest administrative unit, the municipality, the names of regions and provinces have been considered as endonyms or as exonyms according to the linguistic region to which they belong.

¹¹ see footnotes n° 9 and 10

¹² *Glossary of Terms for the Standardization of Geographical Names*
(ST/ESA/STAT/SER.M/85/Add.1)

3 A FEW KEY INFORMATION SOURCES ABOUT GEOGRAPHICAL NAMES

3.1 The Belgian Statute Book

The *Moniteur belge / Belgisch Staatsblad*¹³ is the Official Journal of the Belgian State. Legal and regulatory texts (laws, decrees, Royal decrees, decrees of communities and regions, Ministerial Orders...) shall only be binding once they are published in the *Moniteur belge / Belgisch Staatsblad*. Since the 1st of June 1997, the texts published in the *Moniteur belge / Belgisch Staatsblad* are available online, which makes it easy to follow possible changes in the official names of administrative entities (see point 2.1.).

Copies of the Royal decrees establishing the official spelling of municipality names prior to the 1st of June 1997 can be obtained at a charge at the Statute Book administration (Direction du Moniteur belge / Bestuur van het Belgisch Staatsblad).

On the other hand, note that those official spellings are to be found on the maps and in the data of the National Geographical Institute (see point 3.2).

3.2 The National Geographical Institute of Belgium

The National Geographical Institute of Belgium (IGN-B.)¹⁴ is a federal public interest organisation whose main mission is to gather topogeographical information about the whole of the Belgian territory including toponymy.

The toponymy as applied on the base map of Belgium published between 1994 and 2008 at a scale of 1: 10 000 constitutes a major information source for Belgian geographical names. The main features of these data are the following:

- homogeneity as a result of the methodology applied for gathering and treating data;
- a wide range of themes covered (inhabited areas, natural areas, economic activity areas, hydrography, named places, buildings, constructions, sights...);
- names used in the municipality and in conformity with the linguistic legislation (endonyms);
- use of the official spelling or, by default, of the spelling recommended by the Royal Commission for Toponymy and Dialectology (see point 3.3) upon an advice request introduced by the IGN-B at its own costs and in a standardization purpose.

It is important to mention that from 2009 on, this toponymy will be updated following a six-year update cycle.

There are other information sources for geographical names published by the National Geographical Institute, such as:

- The administrative Map of Belgium, which takes up all official names and spellings of all localities which have been granted the status of municipality since the independence of Belgium.

- The index based on the 2nd edition of the topographic map at the scale 1: 50 000, included in the *Topografische Atlas België = Atlas topographique Belgique* published in 2008 in cooperation with Lannoo Editions. It contains about 20 000 names (municipalities, municipal districts, hamlets and named places) classified in alphabetical order and given along with their XY-coordinates in the Belgian Lambert 2008 system.

3.3 The Royal Commission for Toponymy and Dialectology

The Royal Commission for Toponymy and Dialectology (RCTD)¹⁵ was created in 1927 and comes under the Royal Academy of Belgium.

It is a scientific organisation composed among others by linguists from the three national communities, and constitutes a useful and reliable information source for linguistic disciplines (onomastics, etymology, dialectology, pronunciation...)

¹⁵ Website: www.toponymie-dialectologie.be

4 RECOMMENDATIONS FOR MAP EDITORS

4.1 Use of the endonyms

In order to comply with the Belgian language legislation and to follow the recommendations of the Permanent Commission for Linguistic Control, the IGN-B refers to the linguistic status of the mapped area in order to determine:

- which national language (or languages) has (or have) to be used in the title and in the map face
- in which order the languages (Dutch, French, German) have to be put in the marginal information

As such, the IGN-B also complies with the UNGEGN recommendations to respect the local usage and to give preference to endonyms.

The names indicating the final destination of the roads and the adjacent municipalities are mentioned in the map border. The language use in the map border is determined by the linguistic area to which these toponyms belong.¹⁶

4.2 Diacritic signs

The toponyms on the IGN-B maps are written with their diacritic signs, if any, including the diacritic signs on capital letters.

4.3 Mention of the article in front and use of the hyphen

For official toponyms, the use of the article and of the hyphen is fixed by law and they have to be mentioned in the name.

For the microtoponyms, on the other hand, only an oral survey will make it possible to determine if the article is really an integral part of the name. When we are not sure, we will not mention it.

The use of the hyphen is very haphazard and the IGN-B will only mention it after a positive advice from the Royal Commission for Toponymy and Dialectology.

¹⁶ In order to comply with international standards, the IGN-B uses not only the three national languages (Dutch, French and German) but also English for the marginal information on the topographical maps.

As such, the more or less 200 cartographic objects listed in the legend, of the basic topographic map can be understood by a user who does not speak any of Belgium's three national languages but well English.

**ANNEX 3: ABBREVIATIONS USED FOR THE BASIC MAP OF BELGIUM
AT THE SCALE 1: 10 000**

1. FRENCH / ENGLISH

Ab.	Abbaye	Abbey
Abat.	Abattoir	Slaughterhouse
Ac.	Académie	Academy
Anc.	Ancien	Former
Anct	Anciennement	Formerly
A.R.	Athénée royal	Royal Atheneum
Asc.	Ascenseur hydraulique	Hydraulic lift
Ath.	Athénée	Atheneum
Bas.	Basilique	Basilica
Bég.	Béguinage	Beuguinage
Belv.	Belvédère	Belvedere
Bkr	Bunker	Bunker
Bne	Borne	Stone (Mark)
Calv.	Calvaire	Calvary
Carr.	Carrière	Quarry
Casc.	Cascade	Waterfall
Cath.	Cathédrale	Cathedral
C.C.	Centre culturel	Cultural center
Chap.	Chapelle	Chapel
Charb.	Charbonnage	Coal-mine
Chât.	Château	Castle
Cim.	Cimetière	Cemetery
Coll.	Collège	Secondary school
Collég.	Collégiale (église)	Collegiate church
Cons.	Conservatoire	Conservatory
Déch.	Décharge	Rubbish tip
Dom.	Domaine	Demesne
Épur.	Station d'épuration	Purification plant
EUR.	CEE (bâtiment)	EEC (building)
Fac.	Faculté	Faculty
Fme	Ferme	Farm(house)
Font.	Fontaine	Fountain
Gie	Gendarmerie	Police headquarters
Gr.	Grotte	Cave
(H)	Halte voyageurs	Passenger stop
Int.	Internat	Boarding school
Just.	Palais de Justice	Law courts
Lyc.	Lycée	Secondary school
M.F.	Maison forestière	Forester's house
Mil.	Militaire	Military
Min	Moulin	Mill
Mos.	Mosquée	Mosque
M.R.	Maison de repos	Rest home
Mus.	Musée	Museum

Obs.	Observatoire	Observatory
Orth.	Eglise orthodoxe	Orthodox church
Pomp.	Station de pompage	Pumping-station
Post.X	Centre de tri postal	Sorting office
Pr.	Temple (église protestante)	Protestant church
Rau	Ruisseau	Brook
Rés.for.	Réserve forestière	Forest reserve
Rés.nat.	Réserve naturelle	Nature reserve
Rne(s)	Ruine(s)	Ruin(s)
Sabl.	Sablière, sablonnière	Sandpit
Sém.	Séminaire	Seminary
Ston	Gare voyageurs	Station (railway)
Syn.	Synagogue	Synagogue
Th.	Théâtre	Theatre

2. GERMAN / ENGLISH

Ab.	Abtei	Abbey
Aka.	Akademie	Academy
